

INVACARE LEO MOBILITY SCOOTER

The Invacare Leo Mobility Scooter provides a safe ride, solid design and secure driving experience. The Leo boasts a contemporary design with its sleek and sporty looks. The Invacare Leo Mobility Scooter is an affordable 4-wheeled compact lightweight scooter designed for all those that value their independence and wish to get out and about unaided.

Offering users, the freedom and confidence to enjoy essential daily outings and leisure excursions.

Features:

As far as safety goes, you can't go past the Leo with its 2-step disengaging lever that prevents the scooter moving into the manual operational position to its Intelligent lighting system which ensures that the Leo mobility scooter will continue to operate with the

remaining lights should a light bulb blow.

Its full lighting system, including "Xenon-style" lights, indicators and brake lights improve road safety while its strong motor and 90amp Dynamic DR series Controller ensures a reliable, strong and powerful performance that will handle a 136kg weight capacity.

Finally, foot pads on the front gives the user extra room for their legs and storage, while the modern control panel makes them easy to read and operate.
