

Pegasus Pro

The Pegasus Pro has all the benefits of a large scooter with the size and price of a mid sized! It has large 75AH batteries, digital display (speed, kilometres travelled & time), a user weight capacity of 160kgs, driving range of 52km's on one charge and advanced suspension system.

Ideal for longer trips into town or afternoons driving around the park with your grandchildren, the new ergonomically designed Pegasus PRO is a powerful scooter. With enhanced battery performance, superior suspension and large 12" wheels, the new Pegasus PRO is ideal for users who need that extra performance. The Pegasus PRO blends this extra performance with all of our existing comfort, safety and reliability features to make it the ideal choice for users who demand more.

Now with interchangeable colour panels you can change your scooter colour to suit your mood! Style is forever.
