# LIFESTYLE MOBILITY 1800 703 244

## TREK ZIPPY MOBILITY SCOOTER

The all new Zippy has all the creature comforts in a small mobility scooter and does not disappoint, we use puncture resistant pneumatic tires which ensures a smooth comfortable ride.

The zippy has great high ground clearance, when you are comparing scooters, always check the height of the anti tip wheels as lower height wheels can bottom out when crossing footpaths and in some cases leave you stranded with the drive wheels not in contact with the ground. This in not a problem for the Zippy Mobility Scooter!
